I N T R O D U C T I O N

This report summarizes 1977 traffic volume and vehicle miles of travel on rural sections of the Interstate, Primary, Secondary and Federal Aid Urban Systems. Average daily traffic volumes on the Interstate and Primary Systems are further classified into out-of-state passenger cars and commercial vehicles. Comparisons are made with traffic volumes for the years 1975, 1976, and 1977 for each section of the Interstate and Primary Systems. Pickups are included in passenger cars in order to show a more realistic picture of travel by the heavier commercial vehicles.

Some of the more important comparisons of travel on Montana's Federal Aid Systems are shown in the following tabulations.
